1. PMJT pre-amble, "consult on Fed Emergencies Act"
- No final decision. Not a box-ticking exercise.
Not displacing, superseding PTs jurisdiction, "supplement"
rather, to uphold rule of law.
Relieves National Emergency.
Not about bringing-in military in any way, shape, form.
"Prohibiting Border Crossings demonstration" - Compelling Tow Truck
public enquiry after.

Regulation of protest, locations border downtown Ottawa/Tow Truck Drivers?
prohibitory use of property. Fires/imprisonment.
Dom LeBlanc: Blah blah support supplement PTs efforts
etc.

g

Sandy Yk: Support, speak to other leaders?
Caroline NT: Ethical dilemma, needs policing support though. Rely on
RCMP to Law enforce, need tow truck. No blockade. Support

Argan: BC, already sent RCMP east. Support
Jason King: Intermittent delays at customs border. 40 core group. RCMP
check points have become magnets for protest sympathizers.
RCMP hardcore violent cell, heavily armed. & about 40.
Now has equipment of drivers. Problematic to do now, runs
risk of further radicalization - 10s of thousands of supporters
across AB. See it as very serious provocation, could prove
net negative. PTs can compel truck tow drivers.
Please stop the truckers vaccine mandate, Language
provocation. don't quibble if necessary.
PMJT: Not about truckers

PSM: multiple protests, headed for borders. Reopening border crossing prevented closure protest. What tools, that aren't already used.

Mischief charges. Path forward on how to begin removing public health measures - better tool.

Won't be perceived as helpful, increase intensity of protests.

Put forward plan on moving away from measures.

PMJT: Lametti: Critical infrastructure.

Mendicino: Provides for targeted enforcement, additional flexibility

PSM on local police only RCMP
Lametti
Deputize RCMP - local police forces. coordination.

Heather Steadson: Concern don't want anything to inflame situation worried Emergency Act would escalate. PTs moved to discuss removing restrictions. Look at a plan of removing restrictions at the border.

PMJT: Border blockades more about COVID. Public order, safety. People barricading critical infrastructure.

NU: No direct impact other than food supplies

Doug: \$3 billion of trade affected. Jason, if someone turned off the pipes. Re: Ambassador bridge. Occupiers not protestors anymore. Zero tolerance. only 30 truckers at bridge not truckers. Jeopardizing livelihoods. On brink of signing billions of \$ on deals (cars etc.). Getting rid of tax passports etc. never liked them, but did it. Anarchy on bridge, Ottawa. 1700 vehicles showed up in TD, and they were cleared out. Negotiating w/ tow truck drivers? Horrified. Can't get a damn tow truck. International tow truck offers. Support it going forward. PMJT: compelling tow truck outstanding

F. Legault: preoccupied w/ Ottawa situation. Supports Dory on what's happening in Ottawa. Québec Police has done well in controlling. Don't want Fed Emergency Act to apply to Québec. Don't need / don't want Fed Emergency Act in Québec - Québec we are in control, major error.
 ↳ NOT about supplanting, if needed doesn't go where needed. MCR is affecting Québec.

Lauretti: If Federal Act implemented, consent of one province

Legault: Against clearly

PM/T: very clear, keep talking.

Blaine Higgs: we announced path to open, downscale event. Believes, Nation-wide invocation will inflame the situation. Not a win for protestors, not a loss for science. Not one size fits all. Ottawa is problem, vaccine passports for truckers becomes difficult like to hold. Talk about "path forward" and Ottawa.

Denis Kihy: Fear to inflame. Not an issue on PEI at the moment. Don't want to over politicize.

Final way to take sharp edges off political. 5-6 weeks vac passports and other measures relaxed.

Tim NS: Same place as others fine to move forward not backward. Ottawa situation disgusting. NS doesn't have the problem. Fears Emergency Act will inflame. Fears going backward, inflame passions.

Andrew Lang: Echoes all comments on Ottawa. Inflaming protestors. Silent vast majority, consequences do not set? Don't believe it's about vac mandates, where general anger against the State,

Date

can't placate the few. Medicine Food supplies. 100% support
situation can't be tolerated any longer.

PMJT: Letter to follow-up what's discussed.

Sensitive to problems of inflaming and conscious of
lifting restrictions. Always been step by step.
